

Glyfada Evangelical Church

Introducing our new
church website:
EEEGlyfadas.gr

Dear Friends,

Greetings from Athens! We are excited to share with you our new church website. The text is available in both English and Greek, and we hope that it will help you to connect and stay updated with our ministries.

In mid-June, our current **Timothy interns** will complete their **program**. We are so excitedly anticipating how the Lord will use these young people for His kingdom. In September we hope to restart and expand the program, offering a training opportunity for those who have never had the chance to study theology.

The Pangrati Project is continuing **ministry**, and finding creative ways to connect with the community despite Covid restrictions. Through regular prayer walking, evangelism is taking place and new relationships are being formed.

Prayer Walking in Pangrati Park

BluPrint recently hosted a **seminar on digital marketing**, which was attended by several non-believers along with others from the church. We are also focusing on the aspect of social entrepreneurship, particularly in the refugee community, through composting, gardening, and jewelry making projects.

During this Easter season, we celebrated the united worship of several cultures together (Greek, American, and Persian) through an online Easter program.

The At Home Refugee Project

is currently hosting 12 families. We are encouraged to see how the Lord is working despite the difficulties. One couple in the house decided to study the gospel, and recently professed faith in Jesus as their Savior!

We continue to minister to the families affected by the devastating fires in Mati. This year we will offer some small support to them at Easter, praying they will see God's love as we connect with and pray for them.

Mercy Ministries

Church and Family Ministry

Our family ministries have continued online through couples meeting and children's Sunday school programs. We recently created a children's Easter guide for families to use together. We are maintaining connections with 14 families from the church, as well as 10 non-church families that we connected with through VBS in past years.

While much of our ministry still must be done through a screen, evangelism and discipleship are happening on a daily basis. God is working! As we look to the future, please pray with us for the provision of a new site for our church building. We have a possible property that is open to us, pray for God's leading and wisdom in our next steps.

Thank you for the blessing of your encouragement and partnership in the gospel! We appreciate you!

Serving Together,

Glyfada Evangelical Church

Video Recording is a regular part of our ministries now!
